A **community** can be as small as your **classroom** or as big as the **world**. You **belong** to many **different** communities. Your **town** is a community, your **school** is a community, and so are your **scout troop**, your **sports team**, and your place of **worship**.

A community **depends** on its **members** to **thrive**. The members depend on their community to **provide** them with a **sense of belonging**. A community will have **shared goals**, such as **neighborhood safety** or **winning a championship**.

When a community is **enriched**, it is closer to **reaching** its goals. Members should work **together** to enrich the community. Examples of community enrichment are making the roads **safer**, **providing students** with **better tools** to **learn**, or **beautifying** a **park**.

Your **participation** will be **satisfying** and **rewarding** when you **help** by **volunteering** to enrich your community.
